Extra 3.1

Name _____

Make Over

As a way of reminding ourselves of some of the techniques that we have looked at previously we are going to do some interior design work. The intention is to use appropriate techniques to do specific tasks. Using the image supplied, 'room scene', complete the list of tasks below-

1. Change the colour of the two walls so that the tones and shadows remain true. Do this in a way that can be either easily reverted to the original or adjusted to another colour.
2. Do the same for the bedspread.
3. Replace the picture on the wall, retaining the frame, with another image from the internet.
4. Place an object on the bed so that appears natural.

Lecturer's Comments: _____

Objectives
Revisiting learned techniques to refamiliarise
